Planks with character

As personality never goes out of style, neither does diversity. We have a selection of floors that plays with diversity, due to the rich spectrum of colours and variation of structure. These floors have character that can transform the visual experience of a room.

We believe that it is important to choose a floor that matches your personality, because it is more likely that you will end up with a product that you will be happy with. We also value the importance of individuality, so that you can find something to be proud of. That is why we have selected 27 floors that we have called "planks with character". It is not only a variation of different floors, it is a beautiful variation of structure, grading and brushing, from floors that really stands out to calm floors with a refined appearance.

Anything but ordinary

Earthy colours with a characteristic structure is a key element for all of these floors. If you prefer light floors, Oak Pearl and Oak Coral are two floors that brings forth a natural balance between character and calm. Oak Sand and Oak Barrel has the same effect but with a darker tone of brown that is inspired by the different shades of nature.

For a more distinctive look our Handcrafted products have been textures by hand, which gives each plank a individually and authentic look. The surface, which look untreated, play with the originality of the wood, which is why the imperfections and detective spots are smoothed with black filler.

EARTHY COLOURS WITH A
CHARACTERISTIC STRUCTURE

As a result, we have created highly emotional floors with personality. Perfect for the cosy and personal interior Modern Rustic and Urban Contrast style.

Oak Antique Brown
Castle Plank

Bring nature into your home with Boen Hardwood Flooring. Use natural colors to create your own unique style.
