

The lintel tile is to be protected against falling down by glueing the tile to the aluminium rail or by EPDM-security pieces.

- | | |
|--------------------------------|------------------------|
| 1. ArGeLite tile plate | 6. Insulation |
| 2. Horizontal carrier rail | 7. Glue |
| 3. Aluminium profile, vertical | 8. EPDM-Security piece |
| 4. Aluminium cleat | |
| 5. Thermal separation | |

Notes

The details shown are simplified technical suggestions. The planning and realisation of the facade design are carried out building-specifically, and in particular cases are to be adapted to the country building codes and guidelines.
